WORK EXPERIENCE

Honeywell | Sr. UX Designer | May 2022 – Present

- Enhancing user experience on SAAS Honeywell product Production Intelligence.
- Design concepts for Flaring Intelligence and Emission Reporting for Honeywell Product- Sustainability.
- Lead designer for Auto- Asset Modelling.
- Worked on the primary design and internal release for an in-house Auditing Product.

Publicis Sapient | Sr. UX Designer | Nov 2020 – May 2022

- Lead User Experience for a global OS product, in a fast-paced Agile environment; that seamlessly connects all the data and platforms necessary for delivering innovative and tailored Marketing Plans.
- Project Discovery, creating concepts to finalize features for MVP product. Creating and converting the product into a white label product for pitch.

Infosys Digital | Product Designer/ Sr. UX Designer | Aug 2018 – Nov 2020

At Infosys Digital and WONGDOODY Studio, I was part of multiple short-term projects and product pitches.

- Worked on a seamless account onboarding experience for banking customers with insights-driven hyper-personalized product recommendations.
- Provided a digital solution for a business problem that can help to reduce the gap between the bank and rural area customers by providing an easy, intuitive product.
